DATA XPORT

EASILY EXPORT YOUR MEASUREMENT DATA TO YOUR USUAL SOFTWARE

FUNCTION

DataXport® connects ACRN equipment to your PC.

Easy to use, it allows devices to enter the measured value on the active software like a keyboard.

The sending of the value is done by pressing the button of the control machine or automatically.

All you have to do is set the action after the entry (Enter key, Semicolon key).

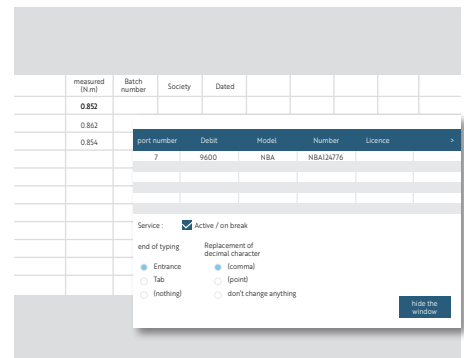

USE CASE:

- Collect a series of measurements over the tests
- Allow a table (Excel®)
- Enter the value in a program cell, web page, ...

With this software that does not require installation, the ACRN equipment will be «Plug and Play».
